

Sonic Electronic

20^{YEAR} Excellence
Service

HISTORY

By the beginning of the year 2004, **Sonic Electronic** was established as an Electronic Industrial Facility in Ras Al Khaimah , United Arab Emirates.

In 2012, **Sonic Electronic** is converted to Trade Company.

COMPANY OVERVIEW

- Telecom & Information Technology Professional Services firm .
- Communication Network Solutions Company characterized by its capability to offer sufficient resources and its agility to respond effectively to different market segments.
- At **Sonic Electronic** quality is not an option, but a habit. Our objective is to provide innovative technological solutions to our clients aimed at meeting and exceeding their expectations by maintaining a high standard of quality and services.
- We are fully committed to deliver world class IT solutions that are based on quality, cost effectiveness, and customer satisfaction through the integration of professionals, process, and business systems.
- We are eager to apply new ideas in order to create a similar experience with technology and improving the way our customers work and adding value to their lives.

OUR VISION

- To provide innovative technological solutions to clients, meeting and exceeding their expectations while maintaining exceptional quality.
- Make our clients updated with the latest version of hardware & software no matter the brand is but our target is to deliver the perfect solutions.
- To achieve your targets.

OUR MISSION

- To develop world class Telecom Solutions that are based on quality, cost effectiveness, and customer satisfaction through the integration of people, process, technology, and business systems.
- In order to achieve this mission of excellence, we:
 - ✓ Constantly evolve our technology and know-how to keep our customers above, ahead, informed and on-track.
 - ✓ Perform in-depth studies of our clients' business needs and goals and deliver solutions which are not only meet their expectations but exceed them.
 - ✓ Communicate with our clients to determine their evolving needs so that they are well adjusted for long-term growth.

OUR STRATEGY

Customer Satisfaction is the name of our game, professionalism is our tool, integrated solutions is what we offer.

Customer Satisfaction means:

- ✓ To satisfy our customer is to provide what is needed and not what is asked for.
- ✓ To satisfy our customer is to transfer the latest technology to our customers, teaching, and learning from/with our customers.
- ✓ To satisfy our customer is to build a trustful respectable relationship

PROFESSIONALISM

- Time and accuracy are our main address.
- Well trained and educated staff are our representatives.
- Pre-sales consultancy is one of our powerful points.
- Experienced and trained installation staff.
- On time and regular maintenance is what we provide.

INTEGRATED SOLUTIONS

- We offer solutions not just products.
- In order to guarantee Customer Satisfaction and Professionalism our experienced technical team provides integrated solutions and workable solutions.

MAINTENANCE AND AFTER-SALES

Dedication to service quality is essential to our success.

Quality support for quality communications systems and excellence through teamwork and empowerment are the goals of to provide its customers with high standards of pre-sales support and after-sales services.

VALUE ADDED SERVICES

Leading provider of communication network solutions, products and services, offers a wide variety of solutions that serve diverse economic sectors.

Making a difference in competitive markets by offering new solutions based on experience, catering to the needs of a changing field as technology evolves.

Thanks to the knowledge and information owned by the company and its follow-up to technological updates in all areas.

We provide customers with world-class solutions and services,
We study our customers' needs day by day in terms of current operations and communication activities, and their needs and future goals, and this information provides the basis for creating comprehensive and effective solutions for low-cost communication systems.

We offer a variety of solutions that serve different economic sectors in the field of selling, supplying and installing, as well as providing and maintaining communications equipment for institutions, and the following are the categories of services:

- Comprehensive smart solutions
